

Northville Streetscape

October 29, 2010

Main Street re-opened this weekend

All of the concrete work on north Main Street west of Center was completed today. Tomorrow the contractor will complete placement of asphalt next to the curbs and Main Street will be opened to vehicular and pedestrian traffic.

The contractor still has work to complete before they will leave the City until next year. Some of the work to be completed yet this year includes placement of topsoil, mulch, lights, striping and signs amongst other things. Please note the contractor expects the lights to be delivered in mid to late November at which time they will be installed. There is no more road closures scheduled this year and pedestrian traffic will experience very minimal impact as the contractor completes the remaining items.

Throughout the project, the contractor and the City's Department of Public Works will make every effort to keep the area clean and traffic moving smoothly. Despite months of careful planning, however, situations may arise that were not expected. For this reason, an AEW on-site inspector, Mike Smith, is available by mobile phone to respond to business and residential concerns at any time during construction hours. He is your best resource for up-to-the-moment information and problem resolution. His number is listed below.

Mike Smith
AEW On-Site Inspector
(586) 709-8463

You are invited to an informational

Coffee Gathering

9 a.m. every Tuesday during construction at **Genitti's Hole in the Wall**
